

BLENDED Paediatric First Aid

Academy
of First Aid

By Busy Bees

How it works...

Online

- The first day of training is done online by the learner
 - The training does not have to be done all in one session – it can be done in hourly sessions
- (Note : We do not recommend that this is done all in one day)
- The online course is in English only and has plenty of aids – Verbal/Subtitles/Videos
 - All videos and inter-active modules must be watched in full
 - Should the attendee not pass the test at the end of the online training, they will be given 1 more try only
 - Should you fail on the second attempt please contact Childminding UK

Face to Face

- In order to be accepted on day 2, the attendee **MUST** show the trainer a copy of the online certificate (either on their phone or a printed copy)
- The second day of the training is done in the classroom – face to face with the first aid trainer
- **Attendees will sit an Assessment paper at the beginning of day 2 – so please be prepared for this by ensuring that you read the Paediatric First aid hand book**
- The trainer will let attendees know at the end of the day if they have passed or failed the course
- In order to receive a Paediatric First aid certificate, both the online training and the face to face training **MUST** be completed and passed in full
- Attendees must bring Photographic ID
